STRIKE IS SPREADING

Nearly Ten Thousand Miners Out Near Hazleton, Pa.

THERE WAS NO DISTURBANCE.

Matters Still Wear Such an Uncertain Aspect That General Gobin Declares That the Removal of Troops or Any Portion of Them Has Not Been Contemplated, HAZLETON, Pa., Sept. 15.—Despite a variety of alarming rumors and a morning movement by a body of miners which looked formidable, yesterday passed off without serious disturbance in the strike region. Matters still wear such an uncertain aspect, however, that General Gobin declares that the removal of the troops or of any portion of them, has not been contemplated. The strike itself is spreading with great rapidity. Exact estimates of the number of men who have quit work are hard to obtain, but conservative figures place it at close to 10,000, with indications that in a short time every colliery of importance in the region will be idle. Although some disposition has been shown by small bodies of strikers in the outlying districts to make demonstrations, they have been of a rather feeble character and the great majority of the men are docile. These mines are now idle: Coxe Brothers & Company, Eckley, Beaver Meadow and Oneida, about 2,000 men; Lehigh and Wilkesbarre Coal company's Honey Brook and Audenreid mines, about 2,500; Frank Pardee's Cranberry and Crystal Ridge, 1,100; Lehigh Valley Coal company's Hazle mine, Yorktown, Jeannville and Audenreid, 3,000; Calvin Pardee & Company's Lattimer and Harwood, 2,000.

The men at Coxe's Stockton mine have expressed their intention of joining the strike.

The collieries still working are the Derringer, Tom Hicken and Shipton, of the Coxe company; Weston, Dodson & Company's Beaverbrook mine, and J. S. Wentz Silverbrook mine.

The first city troop of Philadelphia, which was dispatched at an early hour yesterday morning to the scene of the reported outbreak at Eckley, found nothing for it to do when it reached that place about 1 o'clock in the afternoon. Several hundred miners from Buck Mountain had marched on the Eckley mines and brought out the men there. A few of the men who showed a disposition to continue work were roughly handled, and the mine superintendent, fearing trouble, wired to General Gobin for troops. He also sent word to Drifton and 70 deputies from that place and Roan Junction, nearby, were sent over. They kept themselves under cover at Eckley, however, awaiting developments. Nothing further happened. The men at Eckley joined the ranks of the strikers. Meanwhile the cavalry troops were sent by General Gobin and had a wearisome march over the mountains, only to find everything at Eckley peaceful.

The day had scarcely opened before another annoying story came to brigade headquarters by telephone. It was to the effect that a gang of miners from Drifton, had marched on colliery No. 5 at Jeddo, with the expressed intention of bringing the men out. Upon reaching the colliery, John Marks, the superintendent, met them, and after a conference with a committee of the miners, succeeded in turning them off without trouble. This was the only incident of the day which partook of the nature of a demonstration.

At Lattimer yesterday afternoon a largely attended and decisive meeting of strikers was held to receive the answer of the company to their demands. With a large body of strikers gathered in the open space before the company's store, Superintendent Blake appeared at the door and gave them their answer. It was short and to the point, and met with action equally as decisive. The demands had been formulated as follows:

"We desire and wish the privilege of buying our provisions where we think proper, instead of being forced to buy at the company's stores; we want a 20-per cent advance on all classes of labor; we demand the dismissal of all parties who took part on last Friday, Sept. 10, in the shooting affray; we demand that all classes of labor be paid the same for rock-work as for coal on idle days; we demand that no man shall be discharged for acting on this committee."

The company's answer to this was, first, that the men are not, and never have been obliged to buy exclusively at the company store; second, that the advance would not be granted because the company was paying the average rate of the region; third, the company absolutely refused, without assigning any reason, to discharge anybody who participated in the shooting; fourth, that men suspended on idle days have the privilege of taking some other person's place, thus making good the difference in rate between rock and coal work, and fifth, that no man shall be discharged for acting on the grievance committee.

Superintendent Blake made a short speech to the men, urging them to return to work and arguing that they could gain nothing by remaining idle. "What do you say?" he continued. "Will you come back?"

There was a moment's buzz and then a chorus of "no" went up. The superintendent attempted no further persuasion and the men dispersed.

There were no additional deaths. Four or five men, who have been hovering between life and death ever since the shooting, are unchanged, but all of the others are doing well and many already have been discharged from the hospital. The funeral of Jacob Toma

shostas, the lad who was shot through the head and lingered until Sunday, occurred yesterday in McAdoo. It was attended by one of the largest gatherings seen since the outbreak of the trouble. There was no demonstration and the services passed off quietly. The only other incident in that quiet village was the failure of the Lehigh and Wilkesbarre men to return to work. Guards are still being placed around the houses of several of the mine superintendents, and during the day a sheriff's deputy was seen about the streets guarded by two soldiers.

BLACK EYE FOR CIVIL SERVICE.

Judge Cox of the District Supreme Court Renders an Important Decision.

WASHINGTON, Sept. 15.—Judge Cox of the supreme court of the District of Columbia yesterday dismissed the bill of complaint of John G. Wood, superintendent of mails at Louisville, praying that Postmaster General Gary and Assistant Postmaster General Heath be enjoined from removing him from office. The case has been considered in the nature of a test of the power of removal, and the delivery of the opinion drew to the courtroom many public officials, including members of the civil service commission.

Judge Cox's decision was an elaborate review of the law bearing on removal of federal employees. He held at the outset that it was not within the power of a court of equity to grant relief in matters of appointment and removal from office. Then, taking up the merits of the case, stated that it was settled law that the power of removal was an incident to the power of appointment, and that both could be exercised by the head of a department in reference to subordinate officials.

Concerning the civil service law, Judge Cox held that it must not be construed to grant authority, either to the civil service commission or to the president, to make rules contrary to the law itself, or of a legislative character. He quoted with approval the decision of Justice Brewer that congress could not delegate its power to any administrative body.

This decision will have a most far-reaching effect, and it was one of the matters discussed at the cabinet meeting yesterday. Beyond doubt, it will require the promulgation of new rules and the opinion of lawyers and prominent officials is that it will necessitate a statement from the attorney general in regard to the prerogatives of cabinet officers as to removals and transfers. It was stated after the cabinet meeting that Attorney General McKenna was instructed to prepare such a statement and that before the president leaves town again there will be an important document issued in regard to the civil service.

EXTENT OF THE HURRICANE.

Damage Not So Great at Port Arthur and Sabine Pass as First Reported.

GALVESTON, Sept. 15.—Later and more accurate reports show that the damage done by the hurricane at Port Arthur and Sabine Pass were greatly exaggerated. At Sabine Pass the following are reported as drowned: Captain Green B. Moore, Captain L. L. Bettis, Captain George Wolford and Engineer William Ratcliff. These men were all on vessels which were sunk, and up to this time have not been accounted for and are believed to have been drowned.

Port Arthur suffered the brunt of the blast and half of the town is estimated to have been destroyed or badly injured. The wind came up about 4 o'clock and rapidly increased in velocity, blowing from the south and gradually working into the east. A large number of people sought shelter from the storm in the roundhouse of the railroad and several were severely injured and two killed. Under a restaurant, a small frame structure, three more bodies were found.

Along the Gulf and Interstate railway several people were injured, but none were killed. At Winnie George Barber was badly cut about the knees and wrist; Mand Williams had her feet and hands injured; Mrs. Barber's limbs were severely injured, and people in the vicinity of Winnie were generally injured, but none killed.

The damage to the country to buildings and crops is severe. The losses to the farmers in Jefferson county alone will approximate \$150,000, which they would have had in hand within 30 days had the storm been delayed that long, but now the crops are completely ruined.

SHE NEVER MARRIED.

Never Had Confidence in the Male Sex and Lived 103 Years.

BALTIMORE, Sept. 15.—Miss Sarah Randall died yesterday on the eve of the 103rd anniversary of her birth from the effects of a paralytic stroke. Miss Randall was born in Frederick county, Md., but spent most of her long life in Baltimore. She claimed to have been a relative of the late Samuel J. Randall of Philadelphia, and professed to have had a clear recollection of having met Lafayette during her girlhood.

She never married, because, as she asserted, of lack of confidence in the male sex. At the time of her death Miss Randall was an inmate of the Methodist Episcopal home for the aged.

Three People Perish in a Well.

CAMDEN, Ark., Sept. 15.—John Hudson, a prominent farmer, and his two sons were killed by gas while cleaning out a well yesterday. One of the boys went down first and was overcome by the poisonous gas. When the other went down to get him out he met a like fate. The father then went down to see what was the matter and was likewise killed.

RETURNING TO WORK

Miners Not Waiting For the Ten Days to Expire.

MANY MINES HAVE RESUMED.

Fully Five Thousand Men in the Pittsburgh District Are Already Back at Work—In Ohio Some Return, While Others Are Awaiting For the Ten Days to Elapse. Some Trouble Exists.

PITTSBURGH, Sept. 15.—A large number of mines in the district started yesterday and a still larger number this morning. At least 5,000 of the rail miners are at work and quite a number of river diggers will soon resume.

President Patrick Dolan yesterday met the men of the Wheeling division at Finleyville. He did not commit himself to the men as he had done to the operators, as to the 10-day clause, but as a result they unanimously agreed to start to work at once.

The Pittsburgh and Chicago Gas Coal company, which owns the mines at Gastonville, Snowden and the first pool, has had men at work below the rate. They have been told that they will now get the same rate as paid in the other mines of the division and will also start work at once. This makes uniformity all along the Wheeling division. Everything is in an uproar there. The operators are telegraphing for cars, and they want men—all the men they can get at 65 cents. J. K. Boyle of the Hackett mine says that his mine is working full. The Keeling Coal company's mine at Licks Run was working yesterday, and six cars of coal were taken out.

RIOT ON THE YOUGHIOGHENY RIVER.

One Machine Miner Probably Fatally Stopped by the Strikers.

PITTSBURGH, Sept. 15.—The Darr mine, on the Youghiogheny river, operated by Osborne & Saeger of Cleveland, was the scene of a riot yesterday which will probably result in the death of at least one man. The machine miners started to work on Monday, and yesterday a mob of diggers who were opposed to the men working, gathered at the pit to give the workers a hot reception when they came out of the mine.

As the miners began coming out they were stoned back into the pit, and several shots were fired into the pit mouth after the retreating men. One man, whose name can not be learned, more daring than the rest, ventured into the open and was stoned unmercifully. He will probably die from the effects of the abuse.

OHIO MINERS.

Some Have Returned to Work, Ignoring the Ten Days Clause.

CLEVELAND, Sept. 15.—The coal miners in the Massillon district held a delegate mass meeting yesterday and decided to accept the new rate for mining at the expiration of the 10 days' limit. Parts of the compromise agreement were rejected, however, and a committee was appointed to confer with the operators. If the demands of the men are not granted in 10 days the strike will be continued.

Four hundred men at the Goshen mines returned to work yesterday, ignoring the 10 days' clause, and 400 others resumed this morning at the Midvale mines.

All the mines in the Silver Creek and Clinton districts, near Akron, resumed operations yesterday.

IN WEST VIRGINIA.

The Fight Will Be Kept Up Until Union Labor Is Recognized.

FAIRMONT, W. Va., Sept. 15.—"We are going to fight the battle until every operator in West Virginia recognizes union labor." Thus W. A. Carney sums up the mining situation in West Virginia. Carney is now in charge of the Fairmont district, Rhea having been removed. Chris Evans, ex-secretary of the American Federation of Labor, joins him here Thursday morning and other agitators will be in the last of the week.

The strike will be prolonged until the operators of this state sign the scale. Carney says the promises made the miners of West Virginia that after Pennsylvania and Ohio got fair rates they would receive attention, is to be fulfilled.

Still Holding Out For Sixty-Nine Cents.

SHARON, Pa., Sept. 15.—The miners of this county have signified their intention of staying out on a strike. They claim that they will now hold out for the 69-cent rate and 43 cents for the run of the mine. It was thought that there would be no difficulty about starting the mines. The Mercer county miners did not strike for an increase in wages, but merely through sympathy for the miners of the lower regions.

Nearly All Returned to Work.

GREENSBURG, Pa., Sept. 15.—The mines in this district, with the exception of the Ocean mines at Herminie, are running full, and by the last of the week it is expected that all the miners there will have resumed work.

CHICAGO ELECTRIC CARS COLLIDE Both Running in Opposite Directions on the Same Track.

CHICAGO, Sept. 15.—Two electric cars on the Suburban electric railway collided while running at full speed along the stretch of single track on Harlem avenue, south of Harrison street, in La Grange, yesterday. The accident hap-

pened when traffic was heavy, and nearly all the passengers with which both cars were crowded were injured.

The motorman, J. Murphy and John Jamison, will die.

The following were seriously injured: Conductor J. E. Harvey, August Manetz, John Donnelly, Louis Groedel, Frank Bratty, Richard Schandel, William Otte, Roy Bloom, Thomas Robert, Eliza Meredith, W. S. McKee, Charles Whitsett, W. R. Ryan, August Tupel.

On account of a heavy mist which hung over the tracks the motorman of the southbound car, which was to have passed the northbound car where the double track ends, failed to notice that he had left the double track. Before he could reverse his trolley and run back the northbound car came along at full speed the cars collided with terrific force.

YELLOW FEVER REPORT.

One Genuine Case in New Orleans and Several Suspicious Cases.

NEW ORLEANS, Sept. 15.—There was reported to the board of health for investigation yesterday 26 cases of fever which physicians considered suspicious. Of these, 13 cases were found suffering with a harmless fever, five cases were regarded as suspicious but necessary to be further investigated before a definite report could be made on them; there were no reports as to four cases and four cases were pronounced genuine yellow fever, though one of the latter was classed as of mild type.

The most serious of the four yellow fever cases is located in the neighborhood of the French market. The locality is far from a cleanly one, is populated by a poorer class of people, many of whom are foreigners and might be considered dangerous ground. For that reason special pains were taken by the board of health to quarantine the infected houses. Officers from the police force were detailed to take charge of the neighborhood, a restaurant, a bakery and a shop next door the premises in which the sickness was found, were closed up and a large quantity of disinfectant was sent to the scene to be used.

Of course, the report of new cases daily is creating alarm in some quarters, but thus far the disease has shown but little malignancy, as witness the record of one death out of 14 cases, and none of the practicing physicians are yet on record as expressing a fear of an epidemic.

The same rigid attention is being given to the suspicious cases as obtains in the treatment of those which are declared to be yellow fever. Guards are stationed about the premises, the streets are kept clear, pedestrians are warned and liberal use is made of disinfectants, for the authorities have come to realize that the situation, while not alarming, is certainly serious, and that only watchfulness and vigilance will master the scourge.

One of the features developed during the day is that people of maturer age have been attacked. Heretofore the disease has been confined principally to children of tender age, and boys and girls not yet grown to manhood and womanhood. Two of the late cases show that older people have been attacked.

Yesterday afternoon a new case of fever was reported at Barclay. Out of a population of 25 only three persons in Barclay have not had the sickness and the percentage of deaths has been what is usual in yellow fever epidemics. There were several new cases reported yesterday at Ocean Springs and of the number of ill at Biloxi 15 were reported as suffering with yellow fever. At Ocean Spring, Dr. Wasdin of the marine hospital staff, is receiving the best of attention and it is hoped he will pull through in a few days.

Surgeons Carter and Dunn left Ocean Springs for Pascagoula yesterday. A case of yellow fever exists at that point.

A number of inmates at Ocean Springs are to be sent to Cincinnati in a special car. Surgeon White has been at the detention camp for the past two days superintending its construction. As soon as it is ready a large number of people will be taken away from Biloxi and Ocean Springs, and yellow fever thus deprived of fresh material to feed upon.

EXCELLENT FRUIT CROP.

Peaches Are of Fine Quality and Grapes Are Unusually Plentiful.

SCOTTSBURG, Ind., Sept. 15.—The crop of late peaches has turned out much better than was expected in this section of Indiana. While the yield is not so large, the quality is perfect, and finer peaches were never placed on the market. The clings, which are large, sweet and juicy, command the better prices, and sell readily at \$1.25 a bushel.

There is an enormous grape crop of excellent quality. The grapes are so plentiful and cheap as hardly to pay for the picking, selling for a cent a pound. Large quantities will be converted into wine. Shipments of all fruits are light.

A Mammoth Mastodon.

WATERLOO, Ind., Sept. 15.—The skeleton of a mammoth mastodon was unearthed yesterday afternoon on the farm belonging to Nicholas Spindler. Some of the bones were brought to this city and placed on exhibition. One tusk, which was broken in two, would measure when whole 15 feet long. From the size of the bones already found it is estimated that the animal stood 18 feet high and over.

Mine Property Burned.

SHELBY, Ind., Sept. 15.—The Jackson-Hill mine's head gearing and buildings, adjoining the mine, with all the machinery, were burned yesterday morning. Loss, \$50,000; partially insured. Origin a mystery. It will be rebuilt.

CONDUCTORS FIRED.

Five Men Discharged by the Ohio Southern Railroad.

NO EXPLANATIONS WERE MADE.

Freight Conductors Put in Their Places on the Passenger Trains—Potter Assigns—Raid Made by Burglars—Attempted Suicide—Young Man Accidentally Shot—Other Happenings in Ohio.

JACKSON, O., Sept. 15.—The Ohio Southern railroad has inaugurated a wholesale dismissal of passenger conductors from its force. The men who received their discharge were Conductors Flemming, Hunter and Costello of Springfield, Grimsley of Waverly and Dungan of Jackson. The men were given no notice of their dismissal until they reported as usual for work, when the order of the road's superintendent was read to them.

No reason was given for this summary dismissal. Freight conductors were put in their places. They are J. P. Whittlach, F. B. Glaze, Van Oren, George B. Milliron and Frank Benner. Emmet Dungan of this city has been in the employ of the Ohio Southern road for 19 years and has served in the capacity of conductor for 15 years. He was well known at all points over the line and has always been considered one of the most careful and prudent men in the employ of the company.

Potter Assigns

EAST LIVERPOOL, O., Sept. 15.—James H. Baum, owner of the Wellsville sanitary pottery, assigned yesterday to J. W. Vodey of this city. The liabilities are placed \$20,000; assets, \$25,000. The plant has been running half time for the past two years, and Baum was unable to rally from the strain. His men have been on a strike for the past two weeks for nonpayment of their wages.

Taken to Toledo For Trial.

TIFFIN, O., Sept. 15.—Frank Ford, the man who has been identified by two business men of this place, as having passed bogus money orders here, has been brought here from Wilmington, Del., and taken to Toledo for trial. It is alleged that from June 1, when the orders were stolen from the Melmore postoffice, he passed 135 orders.

Burglars Make a Raid.

WESTON, O., Sept. 15.—Burglars made a raid here last night. The safe in the postoffice was blown open and \$50 in stamps and \$30 in money secured. The safe in H. G. Strawser's jewelry store was also burglarized, the robbers making a big haul, securing \$1,200 worth of watches and jewelry, and \$200 in cash.

Barn Near Barnesville Burned.

BARNESVILLE, O., Sept. 15.—The barn of Earn Plumly, two miles south of here, burned to the ground late last evening with 200 bushels of oats, the same of wheat, 20 tons of hay, wagons, harness and a fine Jersey bull. The fire was started by a little grandson with matches. Loss, \$1,000; no insurance.

Attempted to Drown Herself.

AKRON, O., Sept. 15.—Alice Reading, a society lady of Akron, attempted to drown herself in Silver Lake, but was rescued in the nick of time. She had written a letter to a Toledo man, to whom she was engaged, declaring that she had found him worthless. She could not marry him or live without him.

Burned by an Explosion.

MARYSVILLE, O., Sept. 15.—Mrs. Dr. A. H. Morey was terribly burned yesterday about the face and arms by the explosion of a gasoline stove. She was washing clothes and poured a quantity of gasoline on the burners to hasten it along, when it exploded with the above results.

Shot a Man Instead of a Horse.

STEEBENVILLE, O., Sept. 15.—Michael Anderson, 14, of Colliers, had a worthless horse which he wanted killed. A German coal miner attempted to shoot it, when Anderson got in front and was shot through the heart, dying instantly.

Arrested For Bigamy.

LIMA, O., Sept. 15.—Charles Leon of New York, a scenic artist, was arrested here yesterday afternoon for bigamy. He married Miss Evans of Lima, O., in Columbus a short time ago and is said to have a wife in Florida.

GOLD IN CRIPPLE CREEK.

A Rich Find Has Created Intense Excitement.

COLORADO SPRINGS, Colo., Sept. 15.—Colonel H. S. Ervay has just brought from Cripple Creek a piece of ore weighing over 100 pounds, which is full of free gold and which will carry values aggregating fully \$100,000 to the ton.

The ore was taken from a new find made Saturday and is in many respects the most sensational ever made in Cripple Creek. The rich rock was uncovered at a depth of only six feet.

Considerable excitement has been caused by the new find as the Cripple Creek formation has all along been thought to be of such a nature as to preclude the possibility of gold existing in such abundance in the country rock.

NEW YORK, Sept. 15.—Henry George, the famous single-tax advocate, is confined to his home by a stroke of paralysis. His condition is serious.

It is the belief of many that wheat would to-day be bringing the farmers \$1.50 did silver have its rightful place as money.

THE New York Sun, the organ and advocate of the rule of the trusts, says the slaughter of the miners near Hazelton, Pa., should be applauded "by all law-abiding citizens of Pennsylvania and the whole country." The Sun insists that it makes no difference whether the Sheriff ordered his men to fire or not; that it was a most righteous action. And yet the facts are that the strikers were quietly marching along the public highway, were not armed and many of them were shot down while fleeing from the blood-thirsty Sheriff and his posse. Their murder was an outrage and will remain as a foul blot on Pennsylvania's from name.

A LOOK AT BOOKS.

Governor Bradley Orders State Inspector
Lester to Examine the Penitentiary Accounts.

FRANKFORT, Ky., Sept. 13.—Governor Bradley is not mincing things in his efforts to find out the true condition of the Frankfort penitentiary and the situation between Contractor Martin and the State of Kentucky. Failing to get a vote on either his proposition to abrogate the contract with Martin, by which the State is losing several thousand dollars monthly, or on the other, to discontinue the delivery of chairs pending Martin's delinquency on past-due accounts, Governor Bradley this afternoon entered upon the executive journal an order which is more important than might be supposed if disconnected with a claim of developments in the penitentiary muddle.

The order directs State Inspector Lester to at once begin an investigation of the condition of the penitentiary books and accounts, contracts with Martin, etc., and in so doing to employ the assistance of an expert bookkeeper. The official order is as follows:

"Hon. C. W. Lester, State Inspector and Examiner: You are hereby directed to inspect and report to me the condition of the Frankfort penitentiary, its books and accounts, and also the contracts with A. D. Martin. To do this, you are authorized and directed to employ the services of an expert accountant."

The Governor is to be commended, of course, for the action he has taken, but it's a question whether he would have taken this step had Martin not been identified with the anti-Bradley faction.

THE widow of the late James J. Shackelford relinquished her right to administer upon the estate and on motion of Judge John S. Power, C. L. Sallee was appointed administrator of said decedent and qualified with John Duley, Chas. B. Pearce, Jr., and James H. Sallee as sureties. C. W. Darnall, A. H. Thompson and R. P. Jenkins were appointed appraisers.

HUNDRED MILLIONS SHORT.

The Way the World's Wheat Supply Seems To Be.

Statistician Hyde Makes Some Interesting Statements and Comparisons of Figures.

WASHINGTON, C. C., Sept. 13.—The following relating to the wheat situation is an extract from the complete monthly report of Mr. John Hyde, the Statistician of the Agricultural Department, just issued:

High prices for wheat have for several weeks past been bringing out supplies quite freely, and increased supplies have in turn reacted upon prices, causing some decline from the highest figures of August. The general tenor of the information gleaned from all available sources is not, however, of a character to warrant the expectation or the fear, according as the matter is regarded, from the consumers' or the producers' point of view, of any material cheapening of wheat until another crop is in sight, with a prospect of ampler stocks.

With an annual average European product of over 1,428,000,000 bushels during the six years from 1891 to 1896 inclusive, we exported an average of 166,373,872 bushels a year. This year the European crop, according to Broomhall Corn Trade News, will, in round numbers, amount to 1,329,000,000 Winchester bushels, or 99,000,000 bushels less than the average of the six years in question. If we make the comparison with the figures given by Beerbohm for 1897 the deficiency in the European crop is still greater, the figures, in millions of bushels, being: Average for 1891-1896, 1,428; crop of 1897, 1,315; difference, 113.

That is, according to Beerbohm's estimate of this year's crop, there is a deficiency of 113,000,000 bushels in European countries as compared with their average product for the six years 1891-1896—an average which includes the exceptionally small crop of 1891. To make up the deficiency little help is to be expected from India, Argentine or Australia, for months to come, and in so far as Europe will have to import a larger quantity than usual, she will have to draw it mainly from North America, and especially from the United States, the Canadian contribution being relatively small. Official returns for Ontario and Manitoba give for these two provinces an aggregate of 51,042,253 bushels. If the Argentine crop shall escape the ravages of locusts it seems likely to turn out unusually well, and from January, 1898, when the bulk of the harvest will be got in in Argentine, that country may have more or less wheat to export, as the latest mail advices represent the crop as being in fine condition and the weather highly favorable. There are, however, many chances of serious damage during the next three or four months. The latest accounts from Australia indicate that the drought from which that country has suffered for the last two or three seasons has been broken, and that the wheat crop is giving good promise throughout most of the Australian colonies; but the area was narrowed by drought at seeding time, and, as stocks must be low, it is not likely that even, with a full yield, the crop will be a large one and much be spared for export. The present high prices would ordinarily tend to encourage the sowing of an increased breadth in India, should the weather be favorable and any inclination on the part of the poorer cultivators. To take advantage of such favorable conditions, will probably be in a great measure thwarted by the impoverished condition in which they have been left by the famine in the greater part of the wheat-growing districts.

But leaving out of view the fact that the burden of supply for Europe will fall more largely than usual upon the United States, it is evident that there would, in any case, be a demand for a larger surplus than is to be expected out of this year's crop. If to our average annual export for the six years 1892-1897, we add a European shortage of 99,000,000 bushels figured out by Broomhall, we get a total of 265,373,872 bushels, and in so far we fall short of supplying that quantity Europe, as compared with an average year, must suffer a scarcity in her bread supply, except in so far as she can avert it by drawing on the stocks that may remain out of previous crops. The world's reserves have, however, been reduced in consequence of the short wheat crop of last year and a deficiency in some of the other important food crops will not tend to relieve the tension of the wheat market.

THE funeral of Mr. Walton Tyler, of Germantown, occurred Tuesday morning, with services by Rev. S. D. Dutcher, of this city. Deceased was the eldest son of Mr. and Mrs. Thomas Tyler, and was about fifteen years of age. About two weeks ago he was kicked by a horse, the injury finally causing his death Sunday.

Did You Ever

Try Electric Bitters as a remedy for your troubles? If not, get a bottle now and get relief. This medicine has been found to be peculiarly adapted to the relief and cure of all female complaints, exerting a wonderful direct influence in giving strength and tone to the organs. If you have loss of appetite, constipation, headache, fainting spells, or are nervous, sleepless, excitable, melancholy or troubled with dizzy spells, electric bitters is the medicine you need. Health and strength are guaranteed by its use. Fifty cents and \$1.00 at J. James Wood's drug store.

Has Taken Another Wife.

VENTON, Isle of Wight, Sept. 15.—Colonel Gustav Pabst, a son of the Milwaukee millionaire brewer, was married here yesterday to Miss Hulda Lemp, daughter of the millionaire, W. J. Lemp of St. Louis. The bridegroom was previously married to Margaret Mather, the actress, from whom he was recently divorced.

House, Money and All Burned.

ENGLISH, Ind., Sept. 15.—Alf Krutinger's house, including all its contents, with \$1,000 worth of greenbacks and \$500 worth of bank notes, was destroyed by fire yesterday. The house was valued at \$3,000. There was no insurance. Owing to the scarcity of water, little effort was made to save the property.

No Rain For Eight Weeks.

TERRE HAUTE, Sept. 15.—The present drought has been of eight weeks' duration. During that time there have been but two light sprinkles of rain in this county, and the corn crop will be almost a total failure. For three days past the thermometer here has reached 101.

Satisfactory Adjustment.

GAS CITY, Ind., Sept. 15.—The differences between the Thompson Glass company and its employees have been satisfactorily adjusted, and the factory has resumed operations with a unionized force.

Friday's Cash Sale!

HUCK TOWELS.—Twelve miles from Belfast is the castle of the late Marquis of Downshire-Hill, which gives the town its name of Hillsborough. The town is a hive of thrift, its linen industry turning largely to Towels. The Hillsborough Company is famous for its Huckaback and Twilled Linen Towels. They are the same kind of intrinsic good values one gets under the "Old Bleach" label—that factory a dozen miles from Belfast in another direction. The Hillsborough Company's goods are grass bleached—no chemical rot has ever tainted their product. We made a cash deal on 2,000 Hillsborough Huck Towels and the shipment will make Friday's Towel show and give Maysville the greatest towel values we have offered in years. The Towels are all hemmed and have neat red borders. They are thirsty water soakers, forty inches long, twenty-one inches wide. Careful housewives and hotel men who use liberal size towels will make the most of this occasion. Price 10c.

WOMEN'S HOSIERY, LOT 1.—Forty guage, black nose, improved toe, Heemsdorf dye. The color holds 'till the stocking wears out. Price regularly, 35c. Price Friday, 25c. Want to introduce them to the trade.

LOT 2.—Women's Stainless Black Hose, round heel and toe, crown make, good for walkers and kickers. Price was 25c. Price now, 19c.

LOT 3.—Women's High Class Fancy Hose, say two dozen styles at least, drop stitch, boot ankles, colored tops in solids and stripes, shaped as correctly as the skin of the foot. Every day price, 25c. Friday, 19c. each or two pairs for 35c.

COME TO THE FAIR.

Premiums Will Be Paid as Soon as Awarded.
Admission Only 25 Cents—The
Many Attractions.

With this issue of the BULLETIN we give the final announcement to our readers as to Maysville's fair. Certainly no people have worked harder than the management to make this, their first annual fair, keep pace in every way with the standard claimed by the advertisements. A bonafide dealing has and shall, till the close, characterize the conduct of the management towards the public, and any person who feels that he does not get full value for the small sum he expends is indeed so close-fisted and penurious as to not be included in the invitation to come.

The Ladies' Tuxedo Orchestra, which thrilled so great a crowd at Ripley, has been engaged for the four days and will furnish inspiring and delightful music constantly. Russellville, Ohio, Vanceburg and other sister community bands will also be with us, so that as to music the air will be full of it and you will be charmed.

In front of the amphitheater these attractions will be given each afternoon beginning Wednesday: A grand Wild West show, a high tower dive, a balloon race thrilling and exciting, a green roadster race for horses that have no record, which have not been tracked, driven by owner, besides a great floral hall chucked full of fine shows and beautiful effects.

All for 25 cents admission; so come Wednesday the first day which is as good as any and see the biggest crowd you ever saw in Maysville. The dates are September 22nd to 25th.

HENRY MOSEBY, Jacob Morris and Ike Fields, three colored deckhands on the steamer Sherley, were arrested Tuesday afternoon by Constable Dawson and Purnell on charge of robbery. 'Squire Howe committed them to jail in default of bail, and set their trial for this morning at 10 o'clock. They are accused of holding up Michael Ellis, a Syrian peddler, who was a deck passenger on the boat, and robbing him of \$7.50 and his peddler's license. "Chip" Fields, who was wanted as a witness, refused to accompany Mr. Dawson, and the two had a lively tussle at the wharf. "Chip" was jailed on charge of drunkenness.

The M. E. Conference to Meet in Maysville. The annual session of the Kentucky Conference of the M. E. Church in 1898 will be held in this city. This was decided at the recent session in Pineville. The vote was unanimous for old Maysville. The preachers of the conference know what a reputation the city has for entertaining, so begin to get your chickens ready.

The session will be held sometime in September.

The reward of \$5,000 for Dick Tate has never been withdrawn. It is thought that the insurance companies against whom suit has been brought by Tate's daughter are trying to interest some one in the search for Tate, whom they claim is in South America.

COUNTY CULLINGS.

Items Picked Up by the Bulletin's Correspondents in Mason and Elsewhere.

MT. GILEAD.

Race Jolly is in our midst again. Mrs. Early Farrow is on the sick list. Tobacco cutting is the order of the day. We have quite a nice Sunday school here. M. D. Farrow is visiting B. H. Farrow and family. Mr. and Marion Tolle are visiting the family of B. H. Farrow. Master H. Presley Tolle is the guest of his grandparents, Mr. and Mrs. B. H. Farrow. The family of Prof. Bradley will move to Rectortown September 25th where the Professor is teaching school.

PLUMVILLE.

C. M. Redman is ill with malarial fever. Everything is quiet here now; conference is over. "Doc" Weaver is reported ill with typhoid fever. Mrs. Lide Hord and son were guests of her sister, Mrs. D. B. Jenkins, last week. Dr. Bowman, of Tollesboro, was among the prominent visitors at the conference. School opened here the 6th inst., with W. M. Hicks as teacher, with forty pupils enrolled. The congregation at this place will begin to build their new house of worship this week. Miss Melcina Moody, of Carter County, is a guest of the family of her uncle, G. D. Jenkins. The Misses Davis, of near Tollesboro, were the guests of their cousin, Mrs. Odessa Bean Sunday. Henry Luman and family, of near Tollesboro, were recent guests of relatives at "Orchard Farm."

C. C. Degman is improving his home by building a new dining room to residence at "Maplewood."

Mr. and James Fannen have been entertaining a handsome new daughter at their home since Sunday.

S. B. White, of Portsmouth, was here a few days ago soliciting pupils for a class in instrumental music.

Elder J. W. Wallingford was a pleasant guest of the family of A. L. Redman at "Orchard Farm" one day last week.

Conference is over and the ministers and delegates, about 100 in number, have all returned to their respective homes.

E. L. Cobb, of Springdale, was doing some painting on A. L. Redman's residence at "Orchard Farm" last week.

Mrs. Shoven has the sincere thanks of the community for the use of her organ during the protracted meeting and conference.

Mrs. Juliet Frost and daughters, Miss Henrietta and Mrs. Almer Dodson and children, of Maysville, were guests of Mrs. Mattie Davis last week.

There will be a colored camp meeting held at the Morton Grove near Plumville beginning Saturday evening, the 18th inst., and continuing about ten days.

Mr. and Mrs. Andrew Bierley, nee Berry, arrived last Wednesday from Danville, Ill., where they spent their honeymoon. They will make Kentucky their future home.

The largest crowd that was ever in Plumville was in attendance at the conference Saturday and Sunday evenings. Supposed to be 1,000 persons present Sunday morning.

Mrs. Anna Shoven has removed her organ to her home that she has had at the church for the past seven weeks, having taught quite a large class very successfully in instrumental music.

Amos Wilson came near meeting with a fatal accident last week. He was working in the second story of the barn at "Orchard Farm," when some of the timbers broke, and down came Mr. Wilson, timbers and all, about ten feet, but fortunately he came out with only a severe shaking up and a scare.

The doctor may be a good old man, but even so, medical examinations and the "local application" treatment are abhorrent to every modest woman. They are embarrassing—often useless. They should not be submitted to until everything else has been tried. In nine cases out of ten, there is no reason for them. In nine cases out of ten, the doctor in general practice isn't competent to treat female diseases. They make a branch of medicine by themselves. They are distinct from other ailments. They can be properly understood and treated only by one who has had years of actual practice and experience in this particular line. This is true of Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Dr. Pierce's Favorite Prescription, a remedy for all derangements of the reproductive organs of women, has been in actual use for more than thirty years. It cures every form of "female weakness."

THE GRAIN MARKET.

New York, Sept. 14.—Initial transactions were a fraction over 1c. above last night's closing figures, and the pressure of a few foreign buying orders in the market not only sustained the advance, but gave the market an air of firmness that helped spot wheat materially.

Cash wheat sold at \$1.07 1/2 at Baltimore and 98 1/2c. at St. Louis. Corn 36c. at Baltimore and 28 1/2c. at St. Louis.

September wheat opened at 93 1/2c. at Chicago and closed at 91 1/2c.

PREPARING FOR WAR.

The United States Government Ready to Deal Vigorously With Spain.

NEW YORK, Sept. 15.—A special to The Journal and Advertiser from Washington says: It is now evident that the government is getting ready to deal with Spain vigorously. The board of officers of the naval intelligence bureau has had a conference as to the scheme of naval operations to be adopted in case of war with Spain. A plan which was worked out in detail some time ago was discussed and after a few alterations necessary to bring it up to date, this plan was approved.

At the first sign of actual war the powerful North Atlantic squadron will rendezvous within striking distance of Havana, while the four naval reserve ships of the American line—the Paris, New York, St. Louis and St. Paul—will receive their armaments as cruisers and will proceed to Spain to watch the operations of the Spanish fleet, track it and warn the American naval commanders in advance of its movements.

WORLD'S TELEGRAPH MILEAGE.

The United States Has Nearly Double of That of Europe.

WASHINGTON, Sept. 15.—The total length of the world's telegraph system has now reached 4,908,921 miles, exclusive of 180,440 miles of submarine cables. Of this Europe has 1,764,790 miles, Asia 310,685 miles, Africa 99,419 miles, Australia 217,479 miles and America 2,516,548 miles.

United States Consul Germain, who sends these figures to the state department from Zurich, says they show that, notwithstanding the steady increase in the building of telegraph lines all over Europe, America leads the world and has almost double the European mileage.

Farmers Fight the "Pot Hunters."

JEFFERSONVILLE, Ind., Sept. 15.—The farmers in the vicinity of this city and New Albany propose to take heroic measures to keep the "pot hunters," who invade the country every year before the open season for quail begins, off their farms. Associations are quietly being formed and special policemen will be employed to arrest all who can not show a written permit to hunt on the place where they are shooting. Quail is exceedingly plentiful this season, and pheasant (grouse) is also abundant in the river hills and the knobs.

Hog Cholera.

FORTVILLE, Ind., Sept. 15.—Cholera is raging among the hogs in the vicinity of Eden, in Hancock county. A number of farmers are reported as losing their entire herd, although making every effort to check the ravages of the disease.

GENUINE BICYCLE LIAR.

Flight Was So Swift That His Story Is Not Believed.

They had stretched themselves under a wayside shade to rest and cool and were breathing like tired dogs in summer time.

"Pretty good time, that," said a short, round man who was very warm in the face. "We hit it pretty lively."

"Fair," said the angular wheelman. "Only fair. But a fellow can surprise himself with the time he makes. Once I thought I'd spin down to West Point just to get up an appetite for breakfast."

It was just fine that morning, good breeze and no dust. Well, I hit it a good stiff pace. I sorter lost sight of time and distance, it was so fine, and I forgot to turn around after I'd been out a few minutes. It took a swift farmer to see me, I went so fast. Presently I came to myself, and, taking a new pull at my chewing gum, I stopped. I noticed I was on the outskirts of Jonesboro, as I thought.

"This is Jonesboro, ain't it?" I asked two young kids who were going along the road with some fishing tackle. "Jonesboro—nit," said the smallest kid. "Not much it ain't—I don't think—not very likely and not on your golf stockings. This is Macon."

"Well, you wouldn't have believed it—I could hardly believe it myself. One, hundred miles—just think of it. I went up to the drug store on the corner where the long distance telephone is and thought I'd ring up my wife and tell her I'd be a little late to breakfast, but the line was busy. 'All right,' I said, 'here's a half dollar; just ring up steen hundred when the line's open and tell Mrs. Wheeler that her husband may be a few minutes late to breakfast.'"

"Well, the ride back was great. The preliminary ride down had just put me in trim for it. I had got my second breath. 'Breakfast—how about breakfast?' was the first thing I said to my wife. 'I'm as hungry as a street car driver.' 'Be ready in a few minutes,' she said. 'Ah, there's that telephone. Wait a minute. John, what do you suppose? Here's Macon says you're down there and I'll be a little late to breakfast.'—Atlanta Constitution.

Woman Fatally Scalded.

FORT WAYNE, Sept. 15.—Mrs. Ellen Worman of Glasgow avenue was fatally scalded yesterday. She was carrying a boiler, filled with hot water, down a narrow stairway, when she tripped and fell. The scalding water completely drenched her. Great blotches of hair peeled off her head, and the attempt to remove her clothing tore patches of skin from her body. She cannot recover.

Abounds in Pearls.

CHILLICOTHE, Mo., Sept. 15.—Medicine creek, a small stream whose source is in Iowa, and which runs through the eastern part of this county, is found to abound in pearls. Two men from Iowa, who have been quietly following the creek for the last week, reached here yesterday, having a pocket full of pearls found in mussels' shells.

Will Demand Satisfaction.

LONDON, Sept. 15.—The Vienna correspondent of the Daily News, says: "I learn that the imperial government will demand full satisfaction for injuries to Austro-Hungarian subjects at Lattimer and the severe punishment of those who are culpable in that affair, according to the sentence of the American tribunals."

Lentger's Trial Delayed.

CHICAGO, Sept. 15.—On account of the illness of Juror John E. Fowler, there was no session of the court trying Lentger. The prisoner spent a quiet day in jail, receiving few callers, but being apparently in the best of humor.

Arrested For Passing Counterfeit Money.
WASHINGTON, Sept. 15.—John Marx, 21 years of age, a Spaniard, was arrested yesterday for passing a counterfeit silver dollar. He is believed to be one of a gang who have been operating in the west for some weeks.

The One Great Standard Authority.
So writes Hon. D. J. Brewer, Justice U. S. Supreme Court.

Standard
of the U. S. Gov't Printing Office, the U. S. Supreme Court, all the State Supreme Courts, and of nearly all the Schoolbooks.

Yarmly
Comended
by State Superintendents of Schools, College Presidents, and other Educators about without number.

Invaluable
in the household, and to the teacher, scholar, professional man, and self-educator.

THE BEST FOR PRACTICAL USE.
It is easy to find the word wanted.
It is easy to ascertain the pronunciation.
It is easy to trace the growth of a word.
It is easy to learn what a word means.

The Raleigh News and Observer says:
Our individual preferences were formerly for another dictionary, but better acquaintance with the later edition of Webster (the International) has led us to regard it as the most valuable, and to consider it as the standard for all as any dictionary should be so accepted.

ASSIGNEE'S SALE OF LAND!

As assignee of John W. Osborne, I will, on

Saturday, September 18th,

at 2 o'clock p. m., at the residence of John W. Osborne, on the Dover and Minerva turnpike road, in Mason County, sell to the highest and best bidder, on a credit of six, twelve and eighteen months, the following described real estate:

1. The home farm of John W. Osborne, containing 130 acres, situated on the Dover and Minerva turnpike road, about two miles from Dover. The farm contains a handsome residence and other valuable improvements and is one of the best farms in Mason County.

2. About thirty acres of land on Lee's Creek, about one and a half miles from the home farm. This tract has a tenant house on it, is good land and just the place for one desiring a small farm.

3. The John W. Osborne Tobacco warehouse in Dover, Mason County.

Possession of the first two tracts for purposes of seeding will be given immediately and full possession March 1, 1898. Possession of the warehouse will be given March 1, 1898.

Purchasers must give bond with good security for the purchase money, bearing interest at 6 per cent. per annum from day of sale, and a lien will be retained as additional security. Prospective purchasers are invited to inspect the property.

For further information address me at Tuckahoe, Mason County, Ky., or Thos. R. Plister, Maysville, Ky. J. J. PERRINE.
